Dear Pastor,

St. John's is attempting to encourage your member families to consider a Christ centered education for their children, and encourage your families to continue to be active members at your church. So, St. John's is offering the possibility of a tuition discount to your families.

St. John's Lutheran School is offering a 20% tuition discount to parents attending other Christian Congregations. However, this discount is contingent upon the family's active membership and attendance at your church. (St. John's defines an active member as a member (parent) who attends an average of a least twice each month.)

You will be asked to complete this form twice a year. The first church attendance period is from January 1st through June 30th, which is the basis for the first semester discount beginning in August. The second church attendance period is from July 1st through December 31st, which is the basis for the second semester discount in January.

I attest that (family name) _____ are members of

(church) _____ which is located

at (church address) _____

and that they have actively attended church from:

- January 1st, 2011 through June 31st, 2011
 Not been actively attending
 Is not a member
